DECLARATION OF CONFORMITY
FCMs

Food Contact Materials

TIERRE GROUP S.p.a.

DECLARES

That the items related to the following product ranges:

SERIES 1000-LF
Brass CW510L push-in fittings CW510L Pb <0,1% DNG

ARE IN COMPLIANCE WITH

To the following General Community Legislation

EC 1935/2004 regulation of the European Parliament and of the Council dated 27th October 2004 on materials and articles intented to come into contact with food and abrogating the Directives 80/590/EEC and 89/109/EEC.
Commission Regulation **EC 2023/2006** dated 22nd December 2006 on good manufacturing practice for materials and articles intended to come into contact with food.
Commission Regulation **EC 10/2011 and others after then**, on plastic materials and articles intended to come into contact with food.
Regulation **(EU) 2025/351** amending Regulation (EU) No 10/2011 on plastic materials.
Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC.

To the following General National Legislation:

Art. 1, art. 3, art 4 paragraph 5, art. 6 of the Presidential Decree dated 23rd August 1982, No. 777, Implementation of the Directive (EEC) No. 76/893 and subsequent amendments, starting from the entry into force of the Legislative Decree dated 10th February 2017, No. 29, Sanctioning discipline for the violation of the provisions as listed in the CE regulations regarding materials and objects intended to come into contact with food products and food in general;

To the following Specific National Legislation:

Ministerial Decree No. 34 dated 21st March 1973, Hygienic regulations for packaging, containers, utensils intended to come into contact with food substances or substances for personal use and subsequent updates and modifications;

The items of the above ranges have been produced with the following materials:

EN 12164 CW510L – DW Brass
UNI EN 12165 CW510L – DW Brass

These materials are in compliance with the applicable community regulations concerning materials and articles intended to come into contact with food. Consequently, the products meet the requirements of the European Regulations as listed above.

For all the metal alloys different from aluminum and stainless steel, including surface treatments, as no specific measures have been taken at national and / or community level, the suitability has been evaluated according to the principles of the **art. 3 of the EC regulation 1935/2004** using the Resolution of the Council of Europe as a practical guideline:
Metal and Alloys used in food contact materials and articles Resolution CM/Res (2020)9.

Migration Test:
3 exposures in synthetic water for 2 hours at 100°C under repeated-contact conditions.

Operating Pressure:
The maximum operating pressure is determined by the characteristics of the hose used.
Recommended maximum pressure: **60 bar**.

Temperature:
The temperature range is determined by the characteristics of the hose used.
Maximum temperature: **300°C**.

It's responsability of the user to check the eventual suitability of the products for the usage with the specific food or foods under the conditions of use. Tierre Group S.p.a. recommends to do a washing cycle of the circuit realized using the products object of this declaration before starting the system.

This declaration doesn't give any indication regarding the usability from a technical and a technological point of view. It's responsability of the user to check the suitability of the material for the application. At the same time it's responsability of the industrial and the commercial operators to maintain the traceability of the products supplied by Tierre Group S.p.a.

All the supporting documents relating to this declaration, including those referring to the tests realized on the products and demonstrating the conformity of the products themselves, are available to be checked by the competent authorities, when asked, at the Tierre Group S.p.a. headquarters.
